ADMINISTRATION OR INCREASE GF EX See Note Page 1 of 1
Requires the commissioner of administration to disclose certain information concerning state contracts via the Internet

The proposed legislation requires the commissioner of administration to disclose certain information regarding state contracts on a website which posts reports of state spending. This information will include the contract amount, description and purpose of the contract, beginning and ending dates of the contract, name of the contracting agency, name of the contractor and each subcontractor, and the city and state of the contractor and each subcontractor.

EXPENDITURE EXPLANATION

The proposed legislation will result in an indeterminable increase in state expenditures. LaTrac, the state’s existing transparency website, provides contract information to the public which originates from the Office of Contractual Review’s Contract Financial Management System (CFMS). This system does not currently include information on subcontractors and would require an update to the system to provide this additional information. The DOA was unable to provide an estimate of the potential cost for this revision.

In addition, the proposed legislation requires information pertaining to the names of subcontractors as well as the subcontractors’ city and state. The DOA indicates that not all subcontractor information is currently available would require changes for the collection of this information from contractors.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
